Best

This vehicle emits 251 grams CO<sub>2</sub> per mile. The best emits 0 grams per mile (tailpipe only). Producing and distributing fuel also create emissions; learn more at fueleconomy.gov.

Actual results will vary for many reasons, including driving conditions and how you drive and maintain your vehicle. The average new vehicle gets 29 MPG and costs \$8,500 to fuel over 5 years. Cost estimates are based on 15,000 miles per year at \$ 3.30 per gallon. MPGe is miles per gasoline gallon equivalent. Vehicle emissions are a significant cause of climate change and smog.

GOVERNMENT 5-STAR SAFETY RATINGS

Overall Vehicle Score

★★★★★

Based on the combined rating of frontal, side and rollover. Should ONLY be compared to other vehicles of similar size and weight.

|                                                                                                                        |            |       |
|------------------------------------------------------------------------------------------------------------------------|------------|-------|
| Frontal                                                                                                                | Driver     | ★★★★★ |
| Crash                                                                                                                  | Passenger  | ★★★★★ |
| Based on the risk of injury in a frontal impact. Should ONLY be compared to other vehicles of similar size and weight. |            |       |
| Side                                                                                                                   | Front seat | ★★★★★ |
| Crash                                                                                                                  | Rear seat  | ★★★★★ |
| Star ratings based on the risk of injury in a side impact.                                                             |            |       |
| Rollover                                                                                                               |            | ★★★★  |
| Star ratings based on the risk of rollover in a single-vehicle crash.                                                  |            |       |

Star ratings range from 1 to 5 stars (★★★★★) with 5 being the highest.
